PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving & Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fund precisely like the natural Gastric Juice in its Chemical powers, and furnishing a Completenal Perfect Substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspepsics. curing cases of Deblity, Emacianion, Nervous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific Evidence.

Baron Liebig in his celebrated work on Animal Chemistry says: An Artificial Digestive Fluid, analogous to the Gastric Juice is a prominent and all-prevailing cause of Dyspepsin; curing just in the same manner as they would be in the human stomach.

Dr. Combe, in his valuable writings on the Physiology of Digestion, observes that 'a diminion of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsin; and he states that a distinguished precises of medicine in London, who was severes by afflicted with this complaint, finding every thing else to fait, had recourse to the Gastric Juice is a prominent and all-prevailing cause of Dyspepsin; and he states that a distinguished professor of medicine in London, who was severes by afflicted with this complaint, finding every thing else to fait, had recourse to the Gastric Juice is a prominent and all-prevailing cause of Dyspepsin; and he states that a distinguished professor of medicine in London, who was severes by afflicted with this complaint, finding every thing else to fait, had recourse to the Gastric Juice is a prominent and all-prevailing caus Gastric Juice.

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach and from animals, are well known. In all cases, he says, digestion occurred as perfectly in the artificial as in the natural digestions.

They are pleasant in taste and smell and can be taken by persons with the most delicate stomacis with safety, under any circumstances. 'Dr. Hoogland's German Bilters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. The editor says of Dr. Hoofland's German Bitters.

It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day that are noised about for a brief period and then the gotten after they have done their guilty race of mischief, but of a nedleine long established, universally prized, and which has met the heart approval of the faculty itself.

Evidence upon evidence has been receive (like the foregoing) from all sections of the Union, the three last years, and the strongest te timony in its favor is, that there is more of used in the practice of the regular Physics of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.
